

Hi

Thanks for buying JPEGD software!

Your NEW download link is:

<https://www.rotsreeks.co.za/jpegd.htm>

Instructions:

Please PRINT and follow the next instructions carefully!!

Activations will be done during office hours only Monday to Friday

1. Install all the setups which have been downloaded
2. Make sure you also installed dotNetFramework 4 (ONLY IF YOU HAVE Windows 7)
3. Also, install Main Menu and the grade you have paid for -
4. If the PC ask to make changes to your PC, click YES
5. Click always on ""next, next, install" and when the installation has been completed, click on Finish

ACTIVATION:

- Once the setups have been installed, click on ESC on your keyboard.
- Look for the JPEGD icon
- Don't type anything in registration code block
- Type in your serial codes as above
- Type in your Product code as above
- Type in the first three consonants of your surname (unless it is smaller than three letters e.g. Nel) Van der Merwe will be VND but Nel will stay NEL
- Click on Get registration code
- Type CONFIRM in capital letters
- You will see the registration code
- Whatsapp the code exactly as it appears on the screen to 0833018159
- Do not send a picture as the server can't read a picture.
- There must be 7 groups of 5 digits each. Also, add the minus signs, but no extra spaces
- You will get the WhatsApp message with an activation code
- Start activation code with capital A and type it exactly as it appears
- Click Load. The program will close, open it again and start to work
- If you have a problem, Whatsapp 0833018159
- You can also load Teamviewer if you have any problems and send a picture of the screen to 0833018159
- Make sure you are connected to the internet
